

Virtuo™

BacT/ALERT

**AUTOMATED SYSTEM FOR
FASTER BLOOD CULTURE**

**THE FASTEST PATIENT RESULTS.
DELIVERED.**

BIOMÉRIEUX

PIONEERING DIAGNOSTICS

BacT/ALERT® VIRTUO™: HOW FAST IS YOUR BLOOD CULTURE SOLUTION?

WHY CHOOSE BETWEEN FAST AND ACCURATE?

Faster blood culture results are only relevant if they're also truly reliable.

WHY CHOOSE BETWEEN PRODUCTIVITY AND RELIABILITY?

Discover automation that adapts to your lab organization.

ACCURATE

Control process for reliability

- Blood Level Detection
- Act immediately when needed
- Monitor blood collection practices

RAPID

Put time on the patient's side

- New ultra-sensitive algorithms
- Earlier bacterial growth detection^{1,2,3,4}
- FAN® Plus Media for superior antibiotic neutralization^{5,6}

AUTOMATED

Streamline work, save time & costs

- "Load & Go" to easily manage bottles, less hands-on
- Optimize your workflow
- Manage bottles by anyone, anytime, anywhere

CUSTOMIZED

Fits your lab, your needs

- Achieve easy complete compliance
- Modular & scalable
- Empower your lab with Myla® and VILINK®

EMPOWERING LABS WITH FASTER, QUALITY MICROBIOLOGY SOLUTIONS

At bioMérieux, we believe breakthrough blood culture technologies are essential for faster, accurate results. We've been your partner for over 50 years with innovations by microbiologists, for microbiologists. BacT/ALERT® VIRTUO™ is part of our integrated approach to empower labs with solutions recognized for truly impacting better patient management.

TIME IS OF THE ESSENCE IN SEPSIS DIAGNOSTIC MANAGEMENT

Having saved time with our blood culture offer, check out other ways we can help you improve sepsis patient outcomes.

*CE-IVD marked; FDA cleared
