PrimeOn® Handwash Clean

PrimeOn® Handwash is a colour free, and paraben free formulation, providing thorough cleaning and decontamination of hands both before and after clinical procedures. Our hand wash has been specially formulated with users in mind, with a low skin irritancy potential and a freely rinseable formula, with no residuals. Made from biodegradable ingredients, you can rest assured that you are also caring for the environment whilst caring for you and your patient.

Application: PrimeOn® Handwash should be used when hands are visibly dirty or contaminated with proteinaceous materials, such as blood or bodily fluids. Using the hand wash in conjunction with proper hand washing techniques protects you, your patient and the health care environment from the impact of harmful germs or foreign bodies¹. The WHO recommends hands should be washed for a total of 40-60 seconds in every instance.

- pH neutral, More Compatible with Sensitive Skin
- Colour Free
- Biodegradable Ingredients

Handwash, Sanitiser & Moisturiser

PrimeOn® Sanitiser Sanitise

PrimeOn® Sanitiser removes 99.99999% of germs within one minute, eliminating the tough bacteria that may have survived after hand washing. This ensures that your hands are properly cleaned and sanitised, giving you peace of mind about your hand hygiene and infection control practices. Our formulation is colour and paraben free to reduce irritant potential, and also contains added moisturiser to protect hands against dehydration. PrimeOn® hand sanitiser provides rapid disinfection and cleansing of hands on-the-go, without the need for water.

Application: PrimeOn® Sanitiser, as an alcohol-based hand rub, should be utilised in situation where hands are visibly clean, and should be a part of all hand hygiene routines². When used correctly, alcohol-based hand rubs are more effective than both medicated and non-medicated soaps³. Alcohol-based hand rubs also require less time to use, are more cost effective and cause less irritation to the skin⁶.

✔ Kill 99.99999% Germ

✔ Colour Free

✔ Alcohol Gel for Ease of Rubbing on Hands

Hand Care Range
Handwash, Sanitiser & Moisturiser

PrimeOn® Moisturiser Rejuvenate

Maintaining soft, hydrated hands, while also adhering to infection control protocols is a challenge in a busy work environment. PrimeOn® Moisturiser soothes, nourishes and moisturises the skin, rejuvenating hard-working, dry and irritated hands. Our formulation is fragrance, colour and preservative free to minimise irritation.

Application: For best results, PrimeOn® Moisturiser should be used liberally on hands after *all* procedures. Intact skin is the first line of defence against infection; if skin is damaged, it can harbour higher numbers of microorganisms, and increase the risk of transmission to others⁴. Liberal use of PrimeOn® Moisturiser ensures that the natural moisturising agents present in the skin, which are stripped away through repeated hand washing and sanitising are replaced.

✔ Fragrance Free

✔ Colour Free

✔ Contain Vitamin A, B5 and E
