

Latex Exam Gloves Powder Free, Standard Cuff

Our **Ridley** latex exam glove is named after the rubber pioneer, Sir Henry Ridley (1855-1956). Just like this pioneer, our Ridley gloves have also conquered many different market segments due to its versatile features. It has a proven unquantifiable aqueous latex proteins reading, and its non-sensitising ϑ non-irritant properties continues to be the most popular choice of powder free latex glove in our range.
