## Pipette Tips

### Sorenson Sterile Barrier Tips

Sorenson Bioscience brings you the One-Touch pipette tip range. With a soft TPE material top, these tips are ergonomic and easy to seal, giving accurate and reproducible results every time.

- Leak proof sealing
- Easy to seal, easy to eject
- Wrist friendly - perfect for manual multichannel work
- Soft seal reduces pipettor wear
- Graduated and extended volume
- Certified RNase/DNase-free, non-pyrogenic

## Probes

### Hanna Probes

Did you know that Hanna probes are often compatible with meters from other brands?

**Contact us and our specialist team can help sort you out.**

## Microtubes

### Biotix 1.5mL Snap-Top Microtubes

- Made from medical-grade, high clarity polypropylene
- Tubes with X-resin to provide low-binding characteristics
- Certified DNase, RNase and Endotoxin (pyrogen) free
- Clear or assorted colour options

## High Purity RNA Isolation

- Custom solutions for various sample materials
- Multiple new and innovative products
- Superior reproducibility and reliability

UP TO  
**29%**  
OFF LIST

- NEW!** **NucleoSpin® RNA Plus XS**  
For use with small amounts of sample material, down to a single cell.
- NEW!** **NucleoSpin® RNA Clean-up Maxi**  
Clean-up ≤ 35 mg RNA in less than 30 minutes without RNA degradation.

- NEW!** **NucleoBond® RNA Soil**  
Combines mechanical and chemical lysis with anion exchange technology for RNA extraction from large sample amounts with optimal purity.
- NEW!** **NucleoSpin® RNA Stool**  
Purify small and large RNA (> 18 nt) from human and animal stool samples. NucleoSpin Inhibitor Removal Columns remove contaminants and improve results in downstream applications.

## Gravimetric Sample Diluter

### bioMérieux DILUMAT® Expert

DILUMAT® Expert is a high quality gravimetric sample diluter. It is an ideal instrument for cosmetics applications as it can dilute and weigh samples as small as 1g.

The automated Dilumat® Expert enables you to perform high quality small volume sample dilution. Microbial analysis for cosmetic products is therefore standardised, secured and more rapid.

## Vortexer

### Heathrow Scientific Mini Vortexer

The Mini Vortexer by Heathrow Scientific offers immediate vortex shaking for a variety of tube sizes.

**A simple, touch start operation enables exceptional mixing performance with one handed operation.**

- Modern design allows easy one handed touch start operation and shaking stops when the tube is lifted.
- Can be used with tubes ranging from 2 mL to 50 mL
- Rapid vortex action saves time and enables quick mixing of samples

## Microcentrifuges

**eppendorf**

### Eppendorf Refrigerated Microcentrifuges

Thinking about getting a new centrifuge? Now's the time to future-proof. Make sure you're covered for future applications that might need cooler sample temperatures.

Choose from four refrigerated models to match your throughput and sample requirements.
